Top 10 things you should know and do for a successful, smooth transfer to UNBC:

10. Want to find out how many courses you have remaining to complete a Bachelor's degree?
Completing a two-year program does not automatically mean that you will only have 2 years remaining of a Bachelor's degree. The remaining coursework is very subjective as each transfer student might have taken different courses. This means that it is very possible that you may have to take first year courses at UNBC. For a smooth transfer into the program, we highly recommend completing any courses listed under the 'Recommended Courses to take' section of the pathway if applicable.
