**Twylla Hamelin**, (Employer Rep)  
**Shauna LaTosky** (Faculty Employee Rep 2)  
**April Tod**, (CUPE Employee Rep 1)  
Alencia Graham (CUPE Employee Rep 1) *Alternate*  
**Mike Billups**, (CUPE Employee Rep 2)  
**Kassi Doherty**, (CUPE Employee Rep 2) *Alternate*

## **Committee Resource:**

Jordan Wilbey, Chemical, Radiation & Bio Safety Officer  
Kaila Fadock, (Positional Resource)

## **Absent:**

**Marlene Cannon**, (Employer Rep) *Alternate*  
**Ron Camp II**, (Employer Rep)  
**Debbie Roberts**, (Employer Rep)  
*Vacant*, (Employer Rep) *Alternate*  
*Vacant*, (Employer Rep) *Alternate*  
**Jennifer Dawson**, (Employer Rep)  
**Saphida Migabo**, (Faculty Employee Rep) *Alternate*  
**Siraj ul Islam**, (Faculty Employee Rep) *Alternate 2*  
**Guowei Li**, (CUPE 2278 Employee Rep 2)  
*Vacant*, (CUPE 2278 Employee Rep 1) *Alternate*  
*Vacant*, (CUPE 2278 Employee Rep 2) *Alternate*  
**Christiana Onabola**, (CUPE 2278 Employee Rep 1)  
**David Claus**, (Employer Rep)

## **Committee Resource:**

Thya Warren (OHS Safety Officer)  
Harpreet Johnson (Recording Secretary)

---

Meeting Co-Chair: Tina

## **A. Traditional Territory Acknowledgement - Tina**

**B. Chair Comments** **Scott** Security has been working on a process called Track it. Thya is away this week on vacation, but she has the EOC binders ready to go. Those are binders full of documents for each role of the EOC. If any crisis do come about, we will be ready for that as we have the vests that each position requires. Next step is to complete our fire booklets that go into each building. Also lining up some regional travel for Thya, Jordan and Scott to travel to other campuses.

## **C. AGENDA:** additions:

1. Remove Peter and add Mike
2. Scott and Tina to meet to come up with a communication procedure and plan.

## **D. APPROVAL OF MINUTES May 2024.**

- d.1) Tina to approve and Kassi to second. All in favour, approved.

## **E. BUSINESS ARISING FROM THE PREVIOUS MINUTES**

- e.1) **Scott Welcome Kaila!!** Kaila is now the chair of the Lab Safety Committee.
- e.2) Kaila Introduced herself as the new member and the new Chair of the Lab Safety Committee
- e.3) Scott Working alone proposal Call to security to let the security guard on duty that lets security know that they are working alone. At the end of working alone, you check in. If there is a missed call, there is also a procedure. The issue is that it is not very scalable. When there are more people working alone, it does get harder for the security guard. The proposal is to upgrade the current safe app to have working alone functionality so with that additional change, the worker or student can pull up the app and plug in their information in there. You can set a supervisor or security team as the contact point and then the app will trigger reminders. Each manager can also set up their own procedure for checking in.  
Shauna: The possibility to secure devices that will allow us to check in when there is no Wi-Fi. Just returned from Ethiopia, my student and I had to buy our own Garmin for communications. Garmin Messengers were the only way to connect but these are a huge

Twylla: It would be helpful at the very beginning to highlight the goals on how this procedure is operating. The goal here is to ensure that our people are safe every day. The working from home, there are some people that do check in with the supervisor regularly so for

Supervisor, they are accountable to ensure that their staff is safe, here is one way they can ensure that they are safe by using the Safe App to check in.

Regarding the scope, one area that can be a bit vague is the research staff. They may be engaged in research work, that It is important that we qualify whether that group is included in the working alone.

## **F. Incident Report Summaries**

### **f.1) Review of the Worksafe and other classified incident reports for First Aid Incidents. Safety Investigations: & Other Reports sent to members for review. Scott**

See chart below

18 new subscribers to the Safe App

Inspections are being finalized. Scott will send them out via email.

Investigations:

- A worker had an Ergonomic issue regarding her thumb. She thought it was due to a lot of mouse work and spreadsheet work she had been doing the last month. In the follow up, she recalled straining her thumb previously so that had put some strain on it as well. Her thumb is full range now and is back to normal.
- Heavy box fell on workers hip, moving laundry machines. There was a heavy box with a Christmas tree that fell and hit him. We should have nothing within 1 foot of the ceiling. It is a fire hazard
- A worker strained his back while moving a desk into an office. Scott will need to follow up to finish off this investigation.
